Platte – Colfax Special Quantity Subarea (SQS #2)
Butler – Saunders Special Quantity Subarea (SQS #1)
Flow Meter Register Conversion Cost Share Program

Instructions: The Lower Platte North NRD (LPNNRD) is offering producers cost-share to convert their water flow meter register from gallons to acre-inches in both the Platte – Colfax Special Quantity Subarea (SQS #2) and the Butler – Saunders Special Quantity Subarea (SQS #1). Please fill out the requested information on the back side and submit it with your flow meter invoice to the Lower Platte North NRD / PO Box-126 / Wahoo Nebraska / 68066. The LPNNRD will use actual cost or maximum fixed amount for cost-share reimbursement.

Cost-share within the SQS #2 and SQS #1 areas to convert gallons to acre-inches is available for the actual cost of the register with producer paying the labor cost. **Maximum cost-share will be \$225.00 with deadline for invoices into the NRD office being March 1, 2018.**

Applications will be reviewed each month and approved or denied at the following LPNNRD Board meeting. Also, please fill out one Citizen Attestation form and one W-9 form (which are included in this packet) and submit these with your cost share application sheets and flow meter receipts to the LPNNRD.

This cost share applies to the flow meter register alone. Installation cost and any additional equipment such as straightening vanes, flow stabilizers, etc. are the total cost of the producer or landowner.

Flow meters registers must meet all requirements as outlined by manufacturer's recommendations. Flow meter readings are to be taken at the end of the irrigation season and reported to the Lower Platte North NRD by November 1st of each year. Failure to properly install the water flow meter register or failure to report these readings could result in denial of cost share assistance.

The LPNNRD will inspect each flow meter register installation to make sure it has been properly installed and it matches the description on the cost share application. Incomplete applications maybe denied or delayed until the required information has been submitted and other requirements have been met.

The deadline for submitting applications and invoices for this flow meter register cost share program is March 1, 2018. If funds should become limiting, cost share will be awarded on a 'first come – first serve' basis with priority by date producer contacts staff at the LPNNRD. Time extensions and other considerations will be reviewed on a case-by-case basis by the LPNNRD.
